FOUNDERS

Emil Eifrem, Johan Svensson, and Peter Neubauer

LEADERSHIP TEAM

- Emil Eifrem – CEO and Co-founder (Malmö, Sweden)
- Mike Asher – Chief Financial Officer (Palo Alto, CA)
- Philip Rathle – Chief Technology Officer (San Mateo, CA)
- Sudhir Hasbe – President, Technology (Seattle, WA)
- Jim Webber – Chief Scientist (London, UK)
- Mark Woodhams – Chief Revenue Officer (London, UK)
- Magnus Vejlstrup – SVP of Engineering (Malmö, Sweden)

MISSION

Our mission is to help the world make sense of data.

LOCATIONS

California (US), London (UK), Malmö (SE), Munich (DE), New Delhi (IN), Shanghai (CN), Singapore (SG), and Sydney (AU)

NUMBER OF EMPLOYEES (WORLDWIDE)

844

BOARD OF DIRECTORS

- Emil Eifrem (Neo4j)
- Ola Rollen (Greenbridge)
- Christian Jepsen (Heartcore Capital)
- David Klein (One Peak)
- Romain Mombert (Eurazeo)
- Patrick Pichette (Inovia Capital)
- Michael Treskow (Eight Roads Ventures)

COMPANY VALUATION

Over US \$2 billion (Source: [Neo4j Surpasses \\$200M in Revenue, Accelerates Leadership in GenAI-Driven Graph Technology](#), Nov 19, 2024)

KEY INVESTORS

- Creandum
- Eight Road Ventures/Fidelity
- Eurazeo
- Greenbridge Partners
- GV (formerly Google Ventures)
- Heartcore Capital
- Inovia Capital
- Morgan Stanley Expansion Capital
- Noteus Partners
- One Peak Partners

Over US \$2 billion (Source: [Neo4j Surpasses \\$200M in Revenue, Accelerates Leadership in GenAI-Driven Graph Technology](#), Nov 19, 2024)

USE CASE

BY APPLICATION:

- [Data Privacy, Risk, and Compliance](#)
- [Fraud Detection and Analytics](#)
- [Generative AI](#)
- [Identity and Access Management](#)
- [Knowledge Graphs](#)
- [Master Data Management](#)
- [Network and IT Operations](#)
- [Real-Time Recommendations](#)
- [Supply Chain Management](#)

BY INDUSTRY:

- [Retail](#)
- [Telecommunications](#)
- [Government](#)
- [Life Sciences](#)
- [Financial Services](#)

ADVISORS

- Lars Nordwall
(former President of Field Operations at Neo4j)
- Eric Ries (Entrepreneur and Author)
- Denise Persson (CMO at Snowflake)

PARTNERS

- 150+ Global Partner Ecosystem
- Top-tier partner for AWS, Google Cloud, Microsoft Azure + Alibaba in APAC (our offerings are available on all of these cloud marketplaces)
- Technology alliances with Confluent, Databricks, ESRI, Informatica, Snowflake and Tableau
- OEM partners: 50+, including Cisco, HPE, IBM, and Nokia

PARTNERS

With over 2,100 [customers](#), Neo4j is the world's leading provider of scalable graph technology, enabling connected data applications for more than 84% of the Fortune 100 (and 58% of the Fortune 500):

- Financial Services: >20 of the world's leading FinServ companies (e.g. UBS, Citi)
- Pharmaceuticals: 5 out of 5 of the world's leading Pharma companies (e.g. Novo Nordisk, Novartis)
- Retailers: >5 of the world's leading Retailers (e.g. eBay, ADEO)
- Technology: >10 of the world's leading Software companies (e.g. Intuit)
- Telco: 4 out of 5 of the world's leading Telcos (e.g. BT Group, Comcast)

Notable logos include: AstraZeneca, BMW Group, Boston Scientific, Caterpillar, Inc., CSX, Citi, eBay, Hewlett-Packard Enterprise, IBM, International Consortium of Investigative Journalists (ICIJ), Levi Strauss & Co., Meredith Corporation, Microsoft, NASA, Novo Nordisk, The UBS Group, and Worldline.

Fact Sheet

DEVELOPER COMMUNITY

- The largest active community of 300,000 developers, data scientists, and architects who are working to solve the world's most complex and valuable data problems.
- 33K Graph Academy courses were completed (up from 26K in 2022).
- 90% of our customers deploy in the cloud.
- 100M+ downloads.

PRODUCTS/SOLUTIONS

- Neo4j Graph Database: The only graph database that is trusted by enterprises for its speed, security, and scalability to support the most challenging transactional and analytical workloads. With Neo4j Graph Database, you can choose from multiple cloud options – self-hosted, hybrid, multi-cloud, or our fully managed cloud service, Neo4j AuraDB."
- Neo4j unifies the power of knowledge graph, data science, and vector search to power cutting-edge GenAI apps with highly accurate responses, rich context, and deep explainability – while serving as long-term memory for LLMs. As AI-driven insights become essential for modern enterprises, GraphRAG – combining knowledge graphs with Retrieval Augmented Generation – is redefining GenAI, positioning Neo4j at the forefront of this transformative era.
- Neo4j Bloom: for intuitive visual graph exploration and collaboration.
- Much more, including developer tools, connectors, and training.
